Location names are given as a general guide. It is a good idea to call your local telephone operator (in the US, this is as simple as dialing 0) and ask whether the access number you would like to use is a local call. You are responsible for any phone charges that you incur when using your modem to access the internet.

Location names are given as a general guide. It is a good idea to call your local telephone operator (in the US, this is as simple as dialing 0) and ask wether the access number you would like to use is a local call. You are responsible for any phone charges that you incur when using your modem to access the internet.

Location names are given as a general guide. It is a good idea to call your local telephone operator (in the US, this is as simple as dialing 0) and ask whether the access number you would like to use is a local call. You are responsible for any phone charges that you incur when using your modem to access the internet.

Location names are given as a general guide. It is a good idea to call your local telephone operator (in the US, this is as simple as dialing 0) and ask wether the access number you would like to use is a local call. You are responsible for any phone charges that you incur when using your modem to access the internet.

Location names are given as a general guide. It is a good idea to call your local telephone operator (in the US, this is as simple as dialing 0) and ask wether the access number you would like to use is a local call. You are responsible for any phone charges that you incur when using your modem to access the internet.

Location names are given as a general guide. It is a good idea to call your local telephone operator (in the US, this is as simple as dialing 0) and ask whether the access number you would like to use is a local call. You are responsible for any phone charges that you incur when using your modem to access the internet.

Location names are given as a general guide. It is a good idea to call your local telephone operator (in the US, this is as simple as dialing 0) and ask wether the access number you would like to use is a local call. You are responsible for any phone charges that you incur when using your modem to access the internet.

Location names are given as a general guide. It is a good idea to call your local telephone operator (in the US, this is as simple as dialing 0) and ask whether the access number you would like to use is a local call. You are responsible for any phone charges that you incur when using your modem to access the internet.

| Parkersburg, WV | (304) 893-0005 |
| Wheeling, WV | (304) 559-0005 |

Location names are given as a general guide. It is a good idea to call your local telephone operator (in the US, this is as simple as dialing 0) and ask whether the access number you would like to use is a local call. You are responsible for any phone charges that you incur when using your modem to access the internet.
